

Jackie du Plessis
It's Fine-ally Finished
Schoolgirl Workbox
Tuesday, July 5th - Thursday, July 7th, 2022

Sassy Jacks Stitchery is thrilled to bring Jackie du Plessis of *It's Fine-ally Finished* back this year for some fabulous workshops! All of Jackie's workshops are truly amazing opportunities, and we do our best at Sassy Jacks to make it an experience you will want to return for every chance you get. This year we are launching our Sassafras School of Stitchery with Jackie, and you will be our inaugural class! We will finally have our new shop space open at the wonderful Zebulon H. Baird House in Woodfin, NC. I just can't think of a reason you wouldn't want to join us!

Please see the gorgeous Schoolgirl Workbox photos and descriptions below.

The workshop fee for the Schoolgirl Workbox is \$365 with a non-refundable deposit of \$100 due at registration. There are some optional scrimshaw items (pictured below with the workbox) available for order once you are registered for the class.

We will host the workshop at the Fairfield Inn in Weaverville, NC, just three miles from our shop space. You can book your room at the Fairfiled, at a bed & breakfast or AirBnB nearby, or at any hotel space in the Asheville area. You can also access our accomodations page on our website for some of our favorite recommendations.

Please feel free to call or email us to submit your registration. Space is limited to 26 students, given Covid-19 spacing restrictions, and we are opening registration to our list of students from 2021 prior to opening for general registration. We will confirm you as quickly as we can.

Jackie and I really hope you will join us! See below for the gorgeous photos.

This lovely silken stitched schoolgirl workbox will hold and store each of the examples made in class. Early American band samplers inspire the 1" deep box sides while the front and back showcase a stitched, stylized floral arrangement with a personalization area.

Our class will focus on stitching of the workbox and its construction using paper mock-up models, while also exploring a variety of edging stitches needed to work the edges of the three samplers designed to accompany this workbox. The three samplers fit neatly into the box and can be used for future reference or simply for show & tell of the techniques practiced. The three tiny samplers showcase pulled work, drawn-thread work/hemstitching, and Hardanger work.

We will cover Hems and edgings for finishing edges or linens, how to mitre a corner, classic hemstitching, hems with decorative drawn thread, four-sided hems, picot edge/Danish picot edge hems, Italian hems, and pulled work hems.
